

APPEARANCE OF DWELLINGS

The design of individual houses is not yet finalised. Lagan Homes will seek to ensure that house types are appropriate for the area and respond to local character and context. This will include a variety of house types and sizes. As an example, the photos below show some of Lagan Homes developments.

STREET SCENE

The image below shows how the frontage of the residential development may look from the tree-lined London Road aspect. London Road trees are not included on this drawing.
